

AI and Digital Skilling for Teams

Raise Academy is committed to helping organizations unlock their full potential through tailored digital and AI-focused training. These programs are designed for nonprofits, small businesses, and purpose-driven teams who want to **boost performance, strengthen collaboration, and embrace innovation with confidence.**

What Makes This Pillar Unique

Unlike individual courses (Skill Hub) or Personal Excellence Programs, this pillar is focused on **team-wide impact**. Organizations can:

- **Upskill teams together** with coordinated live learning sessions.
- **Boost productivity and collaboration** by learning how to integrate digital tools into everyday workflows.
- **Adopt AI strategically**, ensuring teams understand how to use emerging technologies ethically and effectively.
- **Customize learning paths** by selecting relevant Series and Programs from the Skill Hub that match their sector or goals.

Through AI and Digital Skilling for Organizations, Raise Academy empowers entire teams to work smarter, collaborate with purpose, and embrace innovation as a force for impact.

Benefits for Organizations

- **Practical and hands-on:** Training designed to be applied directly to team tasks, projects, and client work.
- **Purpose-driven:** A focus on nonprofits, small businesses, and social enterprises who want to maximize impact with limited resources.
- **Future-ready:** Helps teams stay relevant and competitive in a rapidly changing landscape.

Current Packages

1. **Employee Performance Boost**
Focused on improving individual employee productivity by teaching them how to leverage

digital tools and AI for everyday tasks. Employees walk away with practical skills to work smarter, faster, and with greater impact.

2. **Efficient Team Collaboration**

Designed to strengthen communication and project management across teams. This package focuses on collaboration tools (such as Google Workspace, Notion AI, and project platforms) to reduce inefficiencies and improve workflows.

3. **Nonprofit Growth Through Technology**

A specialized track for mission-driven organizations that want to use AI and digital tools to expand outreach, strengthen fundraising, and optimize program delivery while keeping resources aligned with their cause.

4. **Custom Organization Skilling** (*Flagship Package*)

Our most powerful and transformative solution. In this package, we work directly with organizational leaders to co-create a **customized training program** tailored to the unique processes, challenges, and goals of their team:

- Can include courses across the Skill Hub plus **organization-specific modules**.
- Designed for long-term transformation and cultural adoption of digital and AI skills.
- Provides the **highest value and ROI** for organizations seeking sustainable impact.
- This package is the **flagship offering** of Raise Academy and the one we prioritize in our partnerships, as it delivers the deepest results for clients and creates the strongest business growth.
